Description:

Having taught American history a number of times, each time writing (and re-writing) her own materials, Celeste has shared her love of history with many students in her homeschool classes. Designed to be engaging and written in a comfortable style, All American History reads like a good book -- bringing Americas story to life piece by piece. Containing hundreds of images and dozens of maps, All-American History Volume I is a complete years curriculum for students in grades 5 - 8 when combined with the Student Activity Book and Teachers Guide. It is also adaptable for younger and older students. The first volume covers Exploration through 1840. Each week includes a chapter from the Reader, maps, forms, and review questions in the Activity Book, and plenty of hands-on and further research ideas in the Teacher Guide. (As well as great teaching tips, ANSWERS to everything, and a great book list!) The teacher book also provides additional hands-on and further research ideas for the younger students you may use this with.

Im using this for my 1st graders and kindergartener. Its been a great match for us and is broken down very well. If you have young kids, you NEED to get All American History Jr, which I think is only sold on the publishers website. Thatll give you lesson plans for young kids, hands on suggestions, coloring pages, and a bunch more. If you have older kids, they also have stuff for them, but you could probably just use the text book, and have them write summaries. Only reason I gave it 4 stars and not 5, if youre going to use it for high school, youll probably need to add in some more research, but thats a MINOR nit pick.
